18	19 No School (Juneteenth)	20 No FFVP	21 Peaches	22 No FFVP	23 Happy Summer!	24

Stone fruits are now in season—stone fruits get their name from a big “pit” in the middle of the fruit that looks like a stone!

Peaches, plums, apricots, and cherries are a few examples of stone fruit. Can you think of any other fruits with a large pit in the middle?

Hint: check out the fruit featured on the menu June 1st!

All vegetables served with low-fat dip. Produce marked in green is locally-sourced. Menu is subject to availability.
